PROFILE

Highly dedicated Games Programming student proficient in the C language family and both Unity and Unreal. I am excited to use the skills I've developed through studies, founding my own programming society, and my time as a teaching assistant to develop games within a team.

EMPLOYMENT

Programming Teacher Assistant
Helping college students develop games and understanding programming principles.
09/2022 – 06/2023 South Tyneside College

- Taught programming fundamentals and principles via game development with Game Maker Studio 2
- Developed education prototypes and showcase pieces to effectively communicate programming ideas with lecturers and students.
- Maintained in-depth knowledge of relevant fields related to taught engine and language

GAME JAMS

C.A.P Jam
22/11/24 – 24/11/24 **&** *28/11/25 – 30/11/25*
C.A.P Jam - itch.io *2024*
C.A.P Jam - itch.io *2025*

- Worked collaboratively with creation and art societies to host, organize, and run the C.A.P game jam two years in a row.
- Created the website and advertising material as part of production and publication.

EDUCATION

BSc (Hons) Games Programming
09/2020 – 06/2023 Teesside University

Predicated First

- AI for Games 81%
- 3D Graphics 73%
- Journeyman 90%
- Mobile and Multiplayer 76%
- Games Engine Construction 91%
- Programming for Game Engines 82%
- Game Software Engineering 87%

SKILLS

Unity, Unreal Engine, Visual Studio, Rider, GitHub / Git, C++, C#, JavaScript, OpenGL

KEY PROJECTS

Pathfinding (Team of 3) | 81%
Resource-Manager Survival | Unity / C# / Package
Worked in a team of three programmers to build a vertical slice demo combining our own AI algorithms. I developed a reusable Unity package implementing basic grid-based pathfinding for units in a scene.

Journeyman (Cross Discipline) | 90%
Co-Op Platformer | Unreal Engine 5 / Blueprints
Led the technical development of my Astrobot themed Journeyman project, collaborating closely with designers and artists. I Implemented the core character ability mechanics and co-op functionality.

EXTRA- CURRICULAR

- Founder / Chair of Games Programming Society
  2023 – 2026 Teesside University
- 3 Year Member of Games Creation Society
  2023 – 2026 Teesside University
- Games Programming Course Representative
  2023 - Teesside University
- Programming Representative Speaker
  2024 - British Computing Society

AWARDS

- Winner of Cost-of-Living Challenge
  2022 – Sunderland Software City
- Charity Voluntary Web Development
  2023 – Caring Personal Assistants ltd.

INTERESTS

- Hosting game jams and making small scale projects to help learn / teach different programming concepts.
- Rom hacking old games to learn how older / lower-level architecture works and how code was developed under bigger restrictions.
